House prices

At 10.7% annual property price growth across the UK moderated for the fourth month in succession in June according to the latest Nationwide house price index.

Economy

The Bank of England has raised the base rate of interest to 1.25%, its highest rate in 13 years. This represents the fifth consecutive increase since December as the Bank aims to control inflation which is anticipated to rise to 11% by October.

Transactions

Over 109,000 sales took place in May, 12% higher than the pre-Covid average (2016-2020). To date in 2022 over 540,000 sales have taken place and market activity remains well above pre-Covid levels.

Demand

Just over 66,000 mortgages were approved in May, on par with the longer term pre-pandemic average in a sign that the market is beginning to re-set. At £28.4 billion mortgage lending was at its strongest in 2022 to date, no doubt as many sought to lock in deals prior to the base rate rise.

Investment

Average rents across Great Britain rose by 2.8% in the year to May, their highest rate of annual growth in nearly a decade. The latest figures released by the ONS, indicate rising rates of growth in all regions. Across the capital, rents are rising at their strongest rate in five years.
